Appl. No. 10/088,961 Amdt. dated July 5, 2005 Amendment under 37 CFR 1.116 Expedited Procedure Examining Group 1646

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-10. (Cancelled)

- 11. (Original) A recombinant Mkinase protein, comprising an amino acid sequence having at least about 95% identity to the full length amino acid sequence set forth in SEQ ID NO:2, wherein said Mkinase protein will bind to Traf4.
- 12. (Original) The recombinant Mkinase protein according to Claim 11, comprising the amino acid sequence set forth in SEQ ID NO:2.

13-16. (Cancelled)

- 17. (Original) A method for screening for a bioactive agent capable of binding to an Mkinase protein, comprising:
 - a) combining an Mkinase protein and a candidate bioactive agent; and
- b) determining the binding of said candidate bioactive agent to said Mkinase protein; wherein said Mkinase protein comprises an amino acid sequence having at least about 95% identity to the full length amino acid sequence set forth in SEQ ID NO:2, and wherein said Mkinase protein will bind to Traf4.
- 18. (Original) A method for screening for a bioactive agent capable of interfering with the binding of an Mkinase protein to Traf4, comprising:
- a) combining an Mkinase protein and a candidate bioactive agent and Traf4; and
 - b) determining the binding of said Mkinase protein and said Traf4;

Appl. No. 10/088,961 Amdt. dated July 5, 2005 Amendment under 37 CFR 1.116 Expedited Procedure Examining Group 1646

wherein said Mkinase protein comprises an amino acid sequence having at least about 95% identity to the full length amino acid sequence set forth in SEQ ID NO:2, and wherein said Mkinase protein will bind to Traf4 in the absence of said candidate bioactive agent.

- 19. (Original) The method according to Claim 18, wherein said Traf4 and said Mkinase protein are combined first.
 - 20. (Cancelled)
- 21. (Previously presented) The method according to any one of Claims 17-19, wherein said Mkinase protein comprises the full length amino acid sequence set forth in SEQ ID NO:2.

22-28. (Cancelled)

- 29. (New) The recombinant Mkinase protein according to Claim 11, wherein the Mkinase protein has kinase activity.
- 30. (New) A recombinant Mkinase protein, comprising an amino acid sequence having at least about 95% identity to the full length amino acid sequence set forth in SEQ ID NO:2, wherein said Mkinase protein has kinase activity.
- 31. (New) The recombinant Mkinase protein according to Claim 30, comprising the amino acid sequence set forth in SEQ ID NO:2.
